Your child might know the word community from school. They usually talk about libraries, fire stations, shops or the hospital in a community unit in the primary grades. True community isn't just working or living beside each other. Community is when we share life together. Community God's way isn't the same as how we've learned about it at school! This is a great opportunity to talk about how we learn so much at school, but often it isn't the whole story! The bible is a great place to find out what God says about the things we are learning.
