Jesus taught large diverse crowds with varying levels of education. Bread was symbolic but also an easy to understand metaphor. If I were teaching 😞 I'd dramatically complain about my empty stomach, how HUNGRY I was!!! Then I'd talk about how Jesus filled up the bellies and baskets of the crowd on the hill. BUT he wanted them to understand that he came to earth to fill up their LIFE. He came to fill up our hearts when we are sad, our days when they don't feel like they are on purpose or our minds when we don't know the right thing to do. He came to make our life FULL of hope!
