Parent chat!

Establishing identity in Jesus is the root system for your child's faith! Spring planting, weeding or hiking gives us the opportunity to talk to kids about root systems and how they establish (firmly hold) the plant so it can grow up to be healthy and strong! We want our roots to be in Jesus' love, not what we do, what others think of us or how much we have. As you ponder today's message, also consider how you might break parenting habits that may lead your child to believe their worth or value is in their behaviour, their abilities or what you think of them.

Order It!

We pray that you will grow up knowing you are LOVED by Jesus, like a strong tree has strong roots!

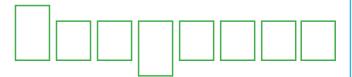

Word-Shapes!

Can you make these words fit into their shape boxes?

loved chosen forgiven God's child
