

It is       today.

I heard:

Parent-chat!

Sometime this week watch this cool trick! Little ones already have an idea of gravity - they know how the world works! That's why this is cool but it makes us scratch our heads right? The discomfort we feel when we hear about injustice is our hearts telling us that this is not God's plan! Just like your brain said "hey wait a minute" when you saw the video, our hearts say "hey wait a minute" when we hear of children that don't have all the stability and security that we have. Go! Be justice bringers this week!

Decode-it!
