## Not ready yet!

Hey kids we know you're not getting married any time soon! It's important for Pastors to talk about BIG stuff like marriage sometimes. How many grown-ups do you know are married? Could you make a list here and then ask a parent to help you pray for them later?

What does Peter NOT mean when he says submit?

What does he mean?

Listen to the story about the woman Pastor Jeremy was talking to - what changed for her?

What is a husband's job?

If Pastor Jeremy had a new job what would it be?

A \_\_\_\_\_ologist

Are you living with people that are different from you at your house? Name some differences!

## Discipleship math!

Percentages mean how many out of 100. When Pastor Jeremy says 79% of people believe the pandemic has brought out the worst in us, that means that if you asked 100 people, 79 people would say it's brought out the worst :( Christians are called to be holy and live differently!

Let's pretend there are 200 people at church today:

What if 50% went home and prayed for marriages. How many people are praying?

## Colour it!
